Education

M.S. in Business Analytics

Jul. 2024-May. 2025

Emory University, Atlanta, GA, USA

B.S. in Business: Finance

Aug. 2018-May. 2022

Miami University, Oxford, OH, USA

Research Experience

Research Assistant

Jul. 2024-now

Emory University, Atlanta, GA, USA

- Develop innovative statistical, machine learning, and causal inference models to analyze the reciprocal causal effects of intrinsic NFT characteristics and buyer-seller account attributes on NFT trading price volatility.
- Scraped and cleaned millions of NFT transaction records, utilizing **SQL** and **Python** (DuckDB, Polars) to construct an ETL pipeline for data collection, cleansing, and the establishment of a local database.

Refereed Conference Publications

- [1] Qirui Liu and Rajiv Garg. "Unveiling NFT Price Dynamics: The Interplay of Traits, Timing, and Social Signaling". In: *ICIS 2025 Proceedings*. 12. 2025. URL: <https://aisel.aisnet.org/icis2025/fintech/fintech/12>.

Conference Presentations

Professional Experience

AI Training Data Specialist

Jan. 2026-Apr. 2026

MiHoYo, Remote Contract

- Responsible for generating corpus data for the reinforcement learning of Text-to-Speech (TTS) models.
- Constructed a localized **RAG + LLM** data generation pipeline that automatically converts HappyScribe podcast transcripts into multi-turn conversational data in both Chinese and English. This system integrates web scraping, text cleaning and chunking, local vector retrieval, Qwen3-4B-powered query optimization, and source anchor filtering, culminating in data generation via Qwen3-32B.
- Enhanced the pipeline by incorporating a rules-driven "critic agent" for quality assurance and iterative rewriting, thereby enhancing the relevance, information density, and cross-topic consistency of the generated content.

Data Specialist

Jul. 2025-Dec. 2025

ByteDance, Remote Contract

- Data Labeling and Rubric Design for LLM training.

Data Scientist Intern

Dec. 2024-May. 2025

NCR Voyix, Atlanta, GA, USA

- Collaborated with the data science team to explore and build a new product by analyzing market opportunity windows and assessing the product's profit potential.
- Engineered unsupervised ML pipeline (K-means clustering, PCA) on customer transaction data

(Size 2TB), and extended the pipeline to build Product Association (FPGrowth) and Collaborative Filtering (ALS) models to send either category or item recommendations.

Product Manager

Oct. 2023-Aug. 2025

Miracle Plus Qisi (Formerly Y Combinator China), Haidian, Beijing, China

- Responsible for the platform's routine operations, user relations, and product feature development.
- Collaborated with the engineering team to design and update AI Agents for article generation, post publishing, public news scraping, user interaction, and recommendation functionalities.
- Clean and maintain user data using **Python**, **SQL**, and **Excel**; regularly conduct product usage and user profiling analyses for users of interest.

Entrepreneur Expansion Lead

Feb. 2023-Oct. 2023

Miracle Plus (Formerly Y Combinator China), Haidian, Beijing, China

- Responsible for leading an intern team to recruit overseas Hackathon-based startup teams, as well as conducting due diligence and industry analysis for portfolio companies, and facilitating connections to startup resources.
- Conducted industry research for portfolio companies; collected and analyzed publicly available data on direct competitors; and presented and reported the analysis results using **Tableau**, **PowerPoint**, and Feishu.
- Assist the Brain Department in building and maintaining a database of entrepreneur contacts, and periodically iterate on the upload, retrieval, and data-cleaning processes.

Financial Advisor Intern

Dec. 2022-Feb. 2023

Sinolink Security, Chengdu, Sichuan, China

- Advised individual clients on portfolio construction, conducting fundamental research on their equity holdings to align investment strategies with their financial goals and risk preferences.

Student Equity Analyst

Dec. 2021-May. 2022

Student Managed Investment Fund-Miami University, Oxford, OH, USA

- Served as Equity Analyst for a \$900,000 IT-sector allocation in a student-managed university endowment, performing fundamental equity research and executing trades that outperformed the sector benchmark.

Partner

Apr. 2020-Jul. 2021

Oho Yeah Xinjiang Buns, Chengdu, Sichuan, China

- Oversaw the budgeting, operations, and management of a local restaurant specializing in Xinjiang cuisine.

Service

Program Committee, *IFORMS Data Science Workshop*, (2026)

Program Committee, *IFORMS Data Science Workshop*, (2025)

Financial Officer, *C-Hope*, Miami University, (2021-2022)

Calligraphy Teacher, *Chinese Arts & Culture Club*, Miami University, (2018-2022)

EcoRep, *Residence Hall Community Leadership Teams*, EcoReps Miami University, (2018-2022)

Private Portfolio Organizer, *Pro bono*, (2019-2022)

Vice President, *Richard L. Nault Chapter of National Residence Hall Honorary (NRHH)*, Miami University, (2019, 2020)

Residence Assistant, *Miami University Office of Residence Life*, (2019, 2020)

Service Leader, *RISE Alternative Springbreak*, Miami University RedHawk, (2018, 2019)

Competitions & Awards

Travelers Insurance Predictive Modeling Competition National Finalist, *Travelers* (2024)

Hundred Innovators Leading Award (Best Performing Department), *Miracle Plus* (2023)

Student Staff Award, *Miami University Office of Residence Life* (2019)

National Student Leadership Award Nominee, *National Association of College and University Residence Halls* (2022)

First Year Experience Award, *The Central Atlantic Affiliate of College and University Residence Hall* (2019)

Miami University Dean List (2018, 2019)

Skills & Interests

Technical: *Python, R, SQL, JavaScript, C++, HTML/CSS*

Language: *English (Fluent), Mandarin (Native), Japanese (Conversational)*

Musical: *Violin, Piano, Guitar, Garageband (Song Artist on NetEase Music), FL Studio*

Visual: *Chinese Traditional Painting & Calligraphy, Digital Art (Procreate, Photoshop), Oil Painting, 3DMax*
